5 important factors to look for in Height Adjustable Tables

Height adjustable tables are quickly becoming a more popular choice in today’s workspaces. With so many brands and options to choose from, finding a table that will satisfy your needs can be challenging. We are here to help!

Here are the top 5 things to look for when searching for the best Height Adjustable Table:

1. **Ability to retrofit existing work surfaces:**
   The sturdy upCentric™ frame accommodates a variety of different tabletop sizes to make converting existing work surfaces into height adjustable tables a very economical way of obtaining a sit-to-stand solution.

2. **Maximum height range:**
   With 26” of height adjustability, the upCentric offers the maximum height range to meeting BIFMA-GA-2013 Standards.

3. **Quick and easy installation:**
   The upCentric is one of the simplest height adjustable tables to assemble. Printed and video instructions make assembling the upCentric easy enough to complete in approximately 15 minutes.

4. **Dual motors:**
   A table with dual motors guarantees it will adjust evenly on each side, while moving quickly and quietly without causing any interruptions to the user. The upCentric features motors made by TiMOTION®, specifically designed for ergonomic height adjustable tables.

5. **Energy efficiency:**
   The upCentric features a low max power draw of just 30W while transitioning in positions. After 30 seconds of inactivity, the upCentric will enter Sleep Mode to reduce energy consumption to just 0.06W of power.

TiMOTION is a registered trademark of TiMOTION Technology Co. Ltd
Frame specifications

The sturdy and easy to assemble upCentric frame accommodates a variety of different tabletop sizes. Consider retrofitting existing tables and desks making a sit-stand solution very economical.

Sturdy design. Easy to assemble. Affordable solution.

The upCentric™ allows workers to easily alternate between seated and standing positions throughout the work day to reduce backaches and pains, reduce stress and tension and to improve circulation throughout the body. Moving the table is intuitive with the easy-to-use up/down control with four position memory. The quiet motors housed in each of the table’s legs ensure a quick, smooth transition in positions. The sturdy upCentric frame accommodates a variety of different table top widths to make retrofitting the table for new users and areas very economical. The durable open frame design provides optimal knee clearance and space for storage.

**Tabletop edges**

- Standard 2mm thick T-Mold edges with 1” radius corner

Sit down. Stand up.
A healthy way to work.

Warranty

ergoCentric Seating Systems hereby warrants all of its tables against defects and functional failure of materials. These warranties shall not apply to any products which must be replaced because of normal wear and tear, negligence, abuse or accident, shipping damage, or product use other than in accordance with written instructions and warnings. ergoCentric makes no warranty that any of its products are suitable for any particular purpose and makes no other warranties, expressed or implied, other than those set forth herein. In no event shall ergoCentric be liable in either tort or contract for any loss or direct, special, incidental, consequential or exemplary damages. This warranty is based on the use during an eight hour work day.

Warranty claims

ergoCentric will repair or replace any product or materials, covered by this warranty, found to be defective or inferior within the warranted period. This warranty includes the cost of labor and shipping. Claims are to be made directly to ergoCentric or to the authorized representative from whom the product was purchased. Product or materials, for which a claim has been made, must be made available for inspection by an authorized ergoCentric representative.

Limit of warranty

These warranties shall be valid only during the term of these warranties; and while the products herein warranted are in the possession of the original purchaser. The original purchaser shall mean the party which first purchased the products for its own use whether from ergoCentric or an authorized ergoCentric representative.
