

Anti-Fatigue Mats

Reduce fatigue
throughout the workday.

Anti-Fatigue Mats

Anti-Fatigue Mats are designed to reduce fatigue that is caused by standing for long periods on hard surfaces. Our well designed mats can help reduce stress placed on the feet, knees and back. The mats support the entire foot surface (no wobbling or sinking from high heel shoes). This surface also allows users to shift their weight evenly along the surface without any bottoming. Mats have a one-piece construction with a no-trip beveled edge design that will never curl.

COMFORT

Anti-Fatigue Mat

- 1 Works well with height adjustable workstations, sit stand seating, and stools.

DURABLE

Anti-Fatigue Mat with ergoCentric+Guard™

- 1 Works well with height adjustable workstations, sit stand seating, and stools.
