

airCentric™ 2

Be cool. Be comfortable. Be productive.

Inspired by the breathability of mesh task chairs, the airCentric 2 combines the airflow inherent in mesh seating with the proven ergonomics of ergoCentric's foam and fabric seating for a truly comfortable seating experience.

ergoCentric®
The science of sitting™

The airCentric™ 2 combines more than a decade of airflow engineering research, with proven ergonomic design, patented technologies and new materials.

Upgraded comfort

The airCentric 2 uses an improved, highly durable, molded back foam cushion that stands up to the test of years of continuous use without losing load-bearing capabilities, shape or dimensions. The molded foam provides long lasting lateral and lumbar support while ventilation holes in both the back and front are designed to allow airflow.

Upgraded appearance

The airCentric 2 has the same number of ventilation holes as the original; however, the addition of a layer of breathable material renders the holes invisible, improving the aesthetic without compromising airflow.

Upgraded choices

Also available with a solid back cap, the airCentric 2S is made for areas with stringent cleaning requirements.

Airflow fabric

Maximize airCentric's airflow capabilities by choosing Air Knit fabric. This durable, three-dimensional fabric provides optimal breathability while its cushioned softness offers long lasting comfort.

airCentric 2 airflow vents

airCentric 2S solid back cap

Optional adjustable headrest

tCentric armrest

Features

Backrest

- 5" patented back height adjustment system
- Back cap with airflow vents
- Proprietary airflow molded polyurethane foam and structure
- Front upholstered dual curve backrest (19"w x 24"h)

Seat

- Tailored upholstery on seat pan (20"w x 19"d)

Control

- Available mechanisms in Midnight Black:
 - Synchro Glide
 - Boardroom
 - Multi Tilt
 - Counter Height
 - Knee Tilt
- Available mechanisms in Light Grey:
 - Synchro Glide
 - Boardroom
 - Counter Height

Base

- 26" glass reinforced nylon mid-profile base
- 5 dual wheel nylon carpet casters

Options

- Solid back cap (airCentric 2S)
- Air lumbar system
- Air thoracic system
- Patented adjustable headrest
- Midnight Black or Light Grey frame, back cap and base
- Optional seat height ranges
- 6 different seat sizes
- Caster, glide and base options

Warranty

12 years, 3 shifts, labor included

- The airCentric warranty includes: casters, pneumatic cylinders, arms, foam and all moving mechanisms
- Multi Tilt and Synchro Glide mechanisms warranted up to weight of 350 lbs and 24/7 use
- All other mechanisms warranted up to weight of 280 lbs and 24/7 use
- With the following exceptions:

10 years

- ergoCentric Approved Fabrics
