

upCentric[®] ES

Height Adjustable Desk

ergoCentric[®]
The science of sitting[®]

Ergonomic, stylish, easy to adjust and assemble

The upCentric® ES series Electric Height Adjustable Desk prioritizes simplicity and ease of use with an innovative, lightweight frame that ensures essential height adjustability. Tailored to meet the needs of the entire workforce and their tasks, the UP-ES helps create an environment that boosts productivity and employee well-being.

Anti-collision solution

Patented anti-collision Gyro sensor system enhances safety and reduce damage to property.

One-touch adjustment

Easy-to-use adjustment controls, including four settable memory positions, enable one touch automatic adjustment to various positions.

Easy to assemble

Pre-assembled frame kit enables a quick and effortless assembly and deployment.
